

# Conveyancing And Trust Account System

## DOWNLOADING PROGRAM UPDATES

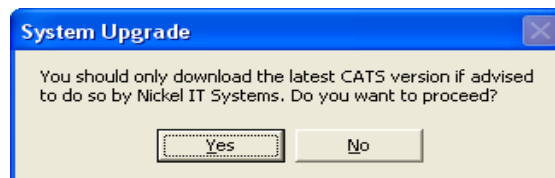

Nickel IT Systems will advise users when an update is available and ready for downloading.

The update only needs to be done on one computer, during which time all other users in the office must be logged out of CATS. Failure to do this will cause the download to fail and may cause errors.

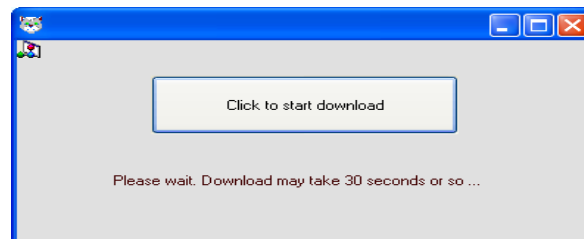

Select *System /Download Update* from the main menu.

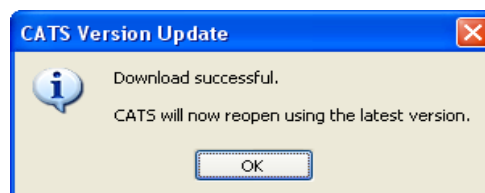

You will be asked to confirm that the update is to be downloaded. Click Yes to proceed

Click on *Click to Download*

After several seconds, a message will appear stating that the download has been successful and that CATS will re-open automatically.

Click OK to re-open CATS using the latest version and continue working.

Call Nickel IT Systems if the download fails.
